Storage- Protect from frost

Exposure controls/personal protection

Personal Protection
Respiratory- Not necessary under normal conditions.
Hand- Not necessary under normal conditions.
Eye- Not necessary under normal conditions.
Skin- Not necessary under normal conditions.

Physical and Chemical Properties

Physical Form Liquid
Colour Various
Odour Faint
pH 4.5-5.5
Boiling Point As water
Melting Point As water
Flash Point Not applicable
Flammability Not applicable
Autoflammability Not applicable
Vapour Pressure As water
Relative Density 1.1
Water Solubility Fully miscible

Stability and Reactivity

Stability of substance Stable under normal conditions.
No hazardous decomposition product.

Toxicological Information

Skin contact- Slight irritant
Eye contact- Irritant
Inhalation- Unlikely to present an acute hazard
Ingestion- If over 25mls is swallowed obtain medical advice.

Ecological Information It is biodegradable.

Disposal Considerations

Product Disposal - Spillages of solutions mixed with inert materials and/or unwanted product should be disposed of by landfill or controlled incineration at an authorised site in accordance with local regulations.

Transport Information

The product is not classified as dangerous for transport.

Regulatory Information

Label for supply- None required.
Safety phrases- S16 In case of contact with eyes rinse immediately with plenty of water and seek medical advice if necessary.
Regulatory references(E.C.)- Non hazardous.
Regulatory references(U.S.)- Non hazardous.

Other Information

Recommended uses- This product is intended for use as Finger Paint by children
Restrictions for use- None.

Other information This safety data sheet has been prepared in accordance with the requirements of the date sheet directive 91/155/EEC
